THE KILIMANJARO INSTITUTE OF TECHNOLOGY AND MANAGEMENT (KITM)

The Kilimanjaro Institute of Technology and Management (KITM) is the leading Tanzania's PRACTICAL oriented training institute, committed in offering a wide range of vocational and Technical courses from Certificate to Diploma level. The Institute is Fully Registered and Accredited by National Council for Technical and Vocational Education and Training (NACTVET) with Registration Number REG/ANE/029. Our areas of Specialization are ICT, Business and Hotel and Tourism. Being a practical based training institute, our graduates have fully accepted by many employers in Tanzania, more than 80% of our students have secured their jobs or further study within three months after course completion – a figure well above national average.

STRATEGIC LOCATION AND LEARNING ENVIRONMENTS

If Location and learning Environments is everything, we have got covered. The Institute is located in Mwenge Dar es Salaam, a walking distance from Mwenge Bus stand and just 3 minutes driving from Mlimani City. We are in a very quiet learning environments where the environments itself encourages students to study and research. We have a modern Library equipped with latest books, CDs, DVDs, wireless internet and Computers to facilitate studies and research. You can get the most of your studies by making full use of the Library. At KITM we are proud of our reputation for the first class teaching, excellent facilities and outstanding academic support.

VISION

To be the best and real world training provider in the region of business management and information technology.

MISSION

To provide efficient, affordable and customized technical and vocational training services as per national and global need.

DEPARTMENT OF COMPUTING AND INFORMATICS

This is a practical and work-related course. You learn by completing projects, assignments, quizzes, end of Seminer test, and national exams which are based on realistic workplace situations activities and demands. The institute owns a state –of-the-art IT lab with RACKS well equipped with latest Network devices like CISCO Router, Switches, Servers, Patch Panel and Wireless routers. By the time you complete the course, you will be able to design a website, create a database, troubleshoot and rectify computer problems, Configuring CISCO Routers, Switches and Wireless Routers, creating a program and many more.
